

PROJECT PROFILE

Project: Waterproofing of walls, **Canada**

Designer: Various specifiers

Contractor: Various contractors

Gemite product: **Tuff-Flex**

Objective: to waterproof, provide carbonation protection and improve the aesthetic appearance of various buildings across Canada. **Tuff-Flex** is a highly flexible, waterborne one-component coating that has a site proven "life span" in excess of 25 years. The high durability, cleanability and effective substrate crack spanning are achieved by this unique and proven formulation. **Tuff-Flex** is a breathable, economical and easy to apply coating available in a virtually limitless range of colours.
